Portfolio - <http://www.ragnarokr.com/verk/>

Objective

I wish to apply the diverse range of skills I have developed to contribute to creating innovative games.

Education

October 2014 - June 2015, University of Washington Certificate in Game Design

Fundamentals of Game Design, Instructor Lee Hammock

Game Mechanics & System Design, Instructor Jay Schneider

Game Studio Roles & Development, Instructor Daniel Smith

(References available from all instructors)

September 2002 - August 2003, June 1999 - June 2000, UW Bachelor of Arts, Scandinavian Area Studies

Tau Sigma Honor Society, Dean's List Fall 2002 & Spring 2003, 3.46 GPA

September 2001 - June 2002, Seattle Central Community College Associate of Arts

Phi Theta Kappa Honor Society, 3.91 GPA

Technical Experience

Professional and academic training in technical and essay writing, project development and presentation

Academic background in history, anthropology, linguistics, art and astronomy

Twenty-five years of Game Master experience while developing house rules and new game systems

Office and design software for Windows, Macintosh and Unix platforms, including MS Office and Adobe Creative Suite

Work Experience

June 2004 - October 2015, WaveDivision Holdings (Kirkland, WA)

A cable and fiber internet provider that owns the brands of Wave Broadband, Spectrum Networks/CondoInternet, Black Rock Fiber Design & Construction, CPI and ReallyFast.net

March 2007 - October 2015, Network Support Technician: I was a member of a NOC team, responsible for monitoring and maintaining a mixed fiber-cable network. This involved quick critical thinking, risk assessment, strong communication skills and project management. As a knowledgeable senior member of the team, my role involved training, documentation, testing new products and services, task delegation and coordination with other departments and companies.

June 2004 - March 2007, Technical Support Representative: By demonstrating superb analytical and communication skills, I was chosen as an initial member of the Network Operations Center when it was created.
